

Pimlico has helped me improve in confidence so much and improved my self-esteem.

Without this project and even the sessions once a week has made me finally believe in myself and give me my spark back which died a long time ago due to a hard start in life of bullying and abuse. I've never believed in myself until now.

I feel so much more confident in myself. Not just on stage and performing it's in everything in general.

After 32 years of being told I'm not good enough and that I will never amount to anything. I finally feel and believe that I can and will achieve anything. I put my mind to as with enough self belief and confidence that Anything is possible no matter what the situation and after multiple prison sentences I know that when I am released on the 1st [redacted] that I will be going with the new found confidence knowing that I don't need to doubt my abilities anymore and that is purely because of my experience in Pimlico and for that I am so grateful. I hope that other people can have the life changing experience that I have and that Pimlico can continue for years to come. Thank you so much for everything.

This image shows a blank sheet of white paper with horizontal blue or grey ruling lines. The lines are evenly spaced and run across the width of the page, typical of notebook paper. There are no margins, text, or other markings on the page.

Pimlico to me is a chance to be free, free from a place I do not wish to be

It makes me smile if only for a while but the memories lost a lifetime and sure do make me shine

It's created bonds that will forever go on and built up personalities to make them strong.

It has also given me further opportunities out of prison as Wasfi has given me contacts that I have already connected with and am excited to continue my journey with them.

A big thank you for your time efforts & funding to make this all possible

Dear Pimlico

Thank you soo much for creating this incredible space for us to have music and dance in our prison life. I always look forward to Fridays knowing we end the week + start the weekend by coming into the creative space.

Bethy, Jodey, Dale and all the others come in and lift our spirits up - in the chapel - where we sing and dance our hearts out.

When I was 7 I was told at school to "mouth it" at Founders' Day and have belittled myself as "tone deaf" for 50 years! I could never have imagined being 'scouted' to do a little pitch bend + pitch adjacent solo in Guys + Dolls at Brunzefield - performing for the public.

It's only due to the incredible guidance and talent of this brilliant team that gave me the courage to solo sing. I appreciate them more than words could ever express.

It's the biggest highlight of being imprisoned in the highest level security female prison in Europe - as a CIVIL PRISONER.

THANK YOU!!
😊
